Cricket on PlayHQ

Ball by ball, every format. Runs to win, required rate and DLS par in every chase.

Already running for Cricket Scotland and Cricket Australia.

Rules set once, applied to every match

Formats, ladders and rain rules are configured per competition, so scorers and administrators never work them out by hand.

Ball-by-ball scoring

Partnerships, fall of wickets, run rate and bowling figures worked out from every ball.

A full scorecard the moment the last ball is bowled.

The chase

Runs to win, required rate, balls left and DLS par on screen in every second innings.

Players and spectators know exactly what's needed.

Grade leaderboards

Runs, wickets and catches ranked by grade and filtered by format.

Top performers visible without a spreadsheet.

Scoring and match records

Runs entered at the ground update the ladder, the player's statistics and the public result at the same time. Nothing is entered twice.

- **Live e-scoring:** Scored on any device and shown live in the app, ball by ball.
- **DLS for rain:** When weather cuts overs, the target resets automatically and the result stands.
- **Line-ups and sub fielders:** Wicketkeeper and captain flagged. Sub fielders named and credited for fielding.
- **Net run rate ladders:** Ranked on points, then net run rate, then wins. Bonus points included.
- **Career statistics:** Runs, average, high score, hundreds, and fifties, accumulating to career totals.

Included as standard

Cricket runs on PlayHQ's core platform, the same system basketball, netball, football, field hockey, rugby union and American Football run on.

COMPETITIONS

Grades, draws and ground allocation set up once, run all season.

PARTICIPANTS

One registration record per participant, across every club, program and clinic.

PAYMENTS

Fees collected in one transaction, distributed to club, association and national levels.

ENGAGEMENT

Websites, apps and video, generated from the competition data you already maintain.

INSIGHTS

Deduplicated participation by region, club, grade and format, live.

COMPLIANCE

Accreditations, permits and transfers on record. Ineligible players blocked at lineup.
