Field hockey on PlayHQ

Field goals, corners and strokes. Shootouts, cards and ladders on goal difference.

Already running for Hockey New Zealand.

Rules set once, applied to every competition

Goal types, card suspensions and ladders are configured per competition by your administrators.

Goals by type

Field goals, penalty corners and penalty strokes recorded separately for every player.

- **Stats that show how every goal was scored.**

Card suspensions

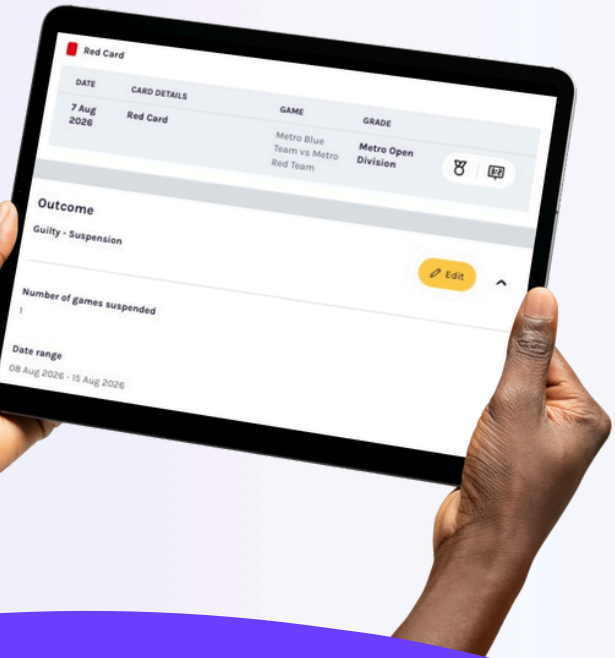
Cards add up across the division and trigger a suspension at the threshold you set.

- **Suspensions applied without chasing paperwork.**

Ladders

Ranked on goal difference, with byes, forfeits, disqualifications and adjustments handled.

- **Your competition rules, applied to every result.**



Scoring and match records

Goals entered on the sideline update the ladder, the player's statistics and the public result at the same time. Nothing is entered twice.

- **Live e-scoring:** Scored on any device and shown live in the app.
- **Automated suspensions:** A red card rules the player out of next week's game and creates an incident.
- **Penalty shootouts:** Wins and losses decided by shootout recorded with the result.
- **Goalkeepers and line-ups:** One goalkeeper per team plus a reserve keeper on every line-up.
- **Career statistics:** Goals by type and cards for every player, accumulating to career totals.

Included as standard

Hockey runs on PlayHQ's core platform, the same system netball, cricket, football, basketball, American football and rugby union run on.

COMPETITIONS

Grades, draws and pitch allocation set up once, run all season.

PARTICIPANTS

One registration record per participant, across every club, program and clinic.

PAYMENTS

Fees collected in one transaction, distributed to club, association and national levels.

ENGAGEMENT

Websites, apps and video, generated from the competition data you already maintain.

INSIGHTS

Deduplicated participation by region, club, grade and format, live.

COMPLIANCE

Accreditations, permits and transfers on record. Ineligible players blocked at lineup.
