Your sport on PlayHQ

Goals, tries, touchdowns or points. Halves, quarters or periods. Every sport is organised its own way, and PlayHQ is built to manage it.

Running today for 7 sports, from rugby union to field hockey with customers spanning across Canada, England, Scotland, Belgium, New Zealand and Australia.

Rules proven across 7 sports, now configured to yours

Your sport may be new to PlayHQ, but its rules aren't. The way you score, penalise and rank teams already runs for another sport on PlayHQ. We configure it to your competitions.

Scoring your way

Penalty goals, tries, conversions and assists. Every way to score recorded separately and credited to the right player.

Already running for field hockey, football, rugby union and American football.

Penalties and suspensions

Timed exclusions set per grade, foul-outs, and cards that add up to a suspension at the threshold you set. A red card can rule a player out of the next game automatically, and return to play follows your governance.

Already running for field hockey, football, rugby union and basketball.

Ladders and tiebreakers

Points for a win, draw or loss, bonus points, and tiebreakers on goal difference, point difference or percentage.

Already running for field hockey, football, rugby union and netball.

How your sport goes live

Four steps from first conversation to launch.

- **Map:** We review your competition structures, rules and current systems.
- **Configure:** Scoring, penalties, and ladders set to your rules.
- **Test:** Run against your real competitions before launch.
- **Launch:** Participants, clubs and competitions moved across.

Tools to power your game day, your way

Results entered on game day update the ladder, the player's statistics and the public result at the same time. No double handling.

LIVE E-SCORING

Scored on any device, or after the game from the admin portal, and shown live in the app.

LINE-UPS AND POSITIONS

Named positions and interchanges, recorded against the match time.

PLAY-BY-PLAY

Every score and card in order, plotted against the clock for fans.

SHOOTOUTS AND MATCH FORMATS

Halves, quarters or periods, with penalty shootout results where a draw isn't an option.

STATISTICS

Scoring for every player, building into leaderboards and career totals.

Everything else is already built

Your sport's rules are the only thing we configure. Everything else is the same platform governing bodies already run their competitions on.

COMPETITIONS

Grades, draws and venue allocation set up once, run all season.

PARTICIPANTS

One registration record per participant, across every club, program and clinic.

PAYMENTS

Fees collected in one transaction, distributed to club, association and national levels.

ENGAGEMENT

Websites, apps and video, generated from the competition data you already maintain.

INSIGHTS

Unique participation numbers by region, club, grade and format, live.

COMPLIANCE

Accreditations, permits and transfers on record. Ineligible players blocked at lineup.
