Volleyball on PlayHQ

Indoor and beach. Set and match scoring, libero and rotation tracking, pair and individual rankings.

Built with Belgium's two volleyball federations, live for the 2027 season.

Rules set once, applied to every competition

Scoring, formats, libero rules and rotations are configured per grade and per competition by your administrators.

Set and match scoring

Sets to 25, or 15 in a decider, with a two-point lead to win. Play best of 1, 3 or 5 sets, with rally-point or side-out scoring.

Set per grade, applied to every result in that competition.

Indoor and beach

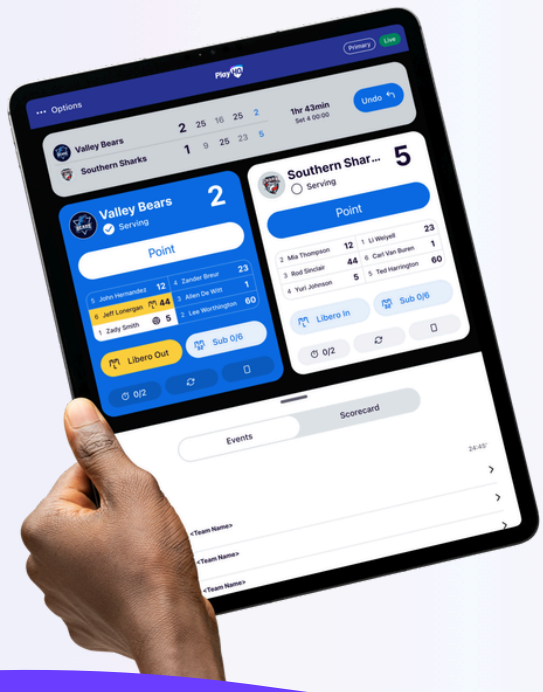
Separate settings, statistics and ladders for each format. Pair rankings for beach, individual records for indoor.

Both formats on one participant record, not two databases.

Libero and rotations

Libero rules set per grade. Rotation, libero swap and server tracked live through every rally on the scoring court. Position-locked substitutions are enforced at the point of entry.

Match record is correct when the game ends.



Scoring and match records

Points entered courtside update the ladder, the player's statistics and the public result at the same time. Nothing is entered twice.

- **Live e-scoring:** Scored courtside on any device and shown live in the app. Simple or standard scoring, selectable by grade.
- **Rally-by-rally match log:** Serve, attack, block and timeout recorded in sequence.
- **Set-based ladders:** Set ratio, point ratio and bonus points in a single table.
- **Player and career statistics:** Attack, block and serve points for every player and grade, accumulating to career totals.
- **Sanctions:** Warnings, penalties, expulsions and disqualifications recorded against the participant.

Included as standard

The volleyball build runs on PlayHQ's core platform — the same system netball, basketball, cricket, football, hockey and rugby union already run on.

COMPETITIONS

Grades, draws and court allocation set up once, run all season.

PARTICIPANTS

One registration record per participant, across every club, program and clinic.

PAYMENTS

Fees collected in one transaction, distributed to club, association and national levels.

ENGAGEMENT

Websites, apps and video, generated from the competition data you already maintain.

INSIGHTS

Deduplicated participation by region, club, grade and format, live.

COMPLIANCE

Accreditations, permits and transfers on record. Ineligible players blocked at lineup.

11M+
